## ABOUT ME

I am currently a 2nd-Year Applied Computer Science student at Dalhousie University. I am passionate about technology and I am always eager to learn new things and technologies. I'm a positive person and motivated to work hard to pursue my goals. I always love challenges and studying Computer Science has enabled me to think differently and sharpen my problem-solving skills. I want to bring about a change in the society with the help of technology. I am interested in the fields of software and web development, computer networking and cybersecurity. I am a lifelong learner and I try to continuously learn new technologies to improve my skill set. Other than that, I am punctual, adaptive and very optimistic as a person. My hobbies include gaming, playing football, building computers, coding and I love to travel a lot as well.
